Academic History

UC SAN DIEGO

B.S. Cognitive Science, Human Computer Interaction, 2015-2019

• GPA: 3.706/4.00
• Provost Honors for 7 quarters
• Interaction Design, Communicating and Computers, Data Science in Practice, Teaching Computational Thinking for Everyone

Skills

HTML5, CSS3, JavaScript, BootStrap, jQuery, Git, Photoshop, Premiere, InDesign

Projects

CIAOCHOW - DECEMBER 2018

• Developed platform for students to exchange food based on necessity, cost, and date of expiration
• Process included need finding, storyboarding, prototyping, wire framing, and heuristic evaluations
• Tools used: HTML/CSS, JavaScript, Bootstrap, jQuery

SLOT MACHINES - APRIL 2018

• Created a game in which users place money bets, and play a slot machine which randomly generates three numbers, and determines if they win or lose
• Tools used: HTML/CSS, JavaScript, Bootstrap, jQuery

JUSTICE LEAGUE - MARCH 2018

• Players selected members of the Justice League to fight against the joker with a randomized winner
• Winning and losing would affect the player's Healing Power (HP), and the first character with 0 HP loses the game
• Tools used: HTML/CSS, JavaScript

Work Experience

FOOD HANDLER

Housing, Dining, and Hospitality, March 2017-Present

• Clearly communicated with coworkers and management during high traffic hours
• Commended for efficiency in food preparation, serving, and cashiering
